

# RIRS TRAINING COURSES 2020

Hôpital Tenon, Paris - France

Prof. Olivier TRAXER  
Hôpital Tenon, Paris

The number of indications for ureterorenoscopy have significantly increased in recent years. This trend will become more prevalent in the future due to the distinct tendency towards minimally invasive treatments.

Retrograde IntraRenal Surgery (RIRS) represents an achievement for endourologists and continues to evolve year after year into better management of patients with upper urinary tract diseases.
